

Data Warehouse

Automation task

by: Mountasser Labchiri

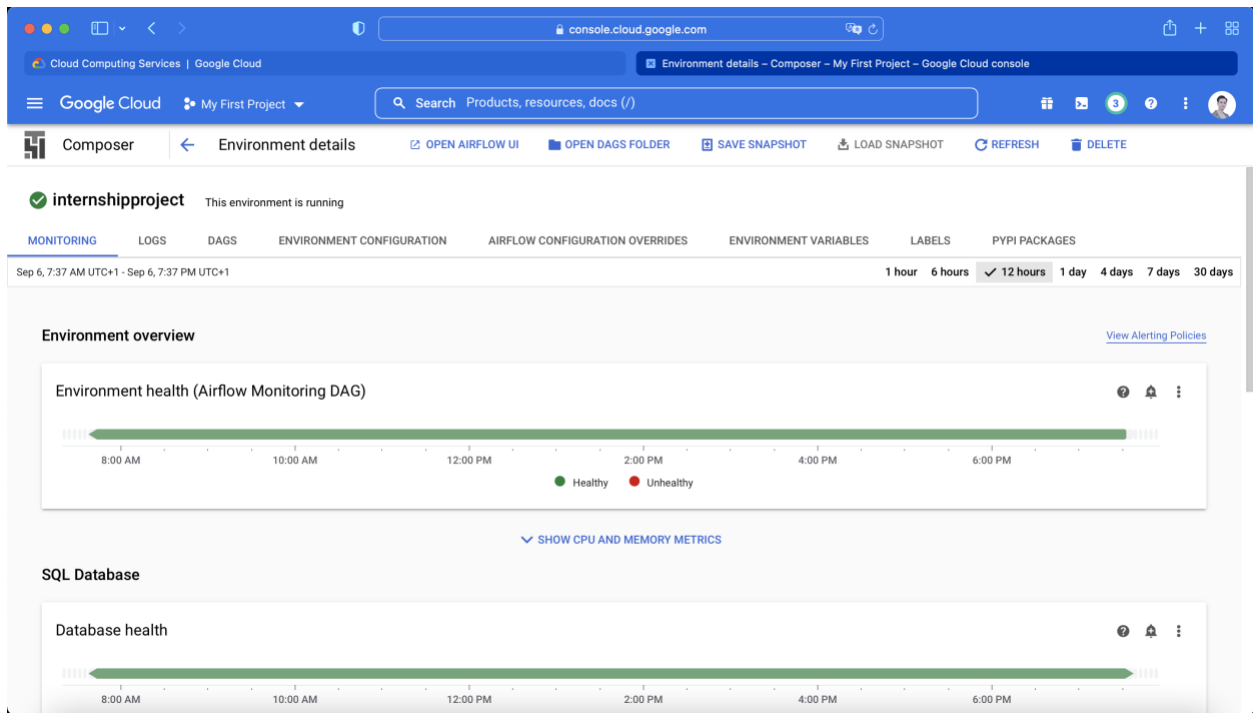

1 - Project Created

The screenshot shows the Google Cloud Console interface for the 'Composer' service. The 'Environments' tab is selected, displaying a table with one environment. The environment is named 'internshipproject', located in 'us-central1', using 'Composer version 1.19.8' and 'Airflow version 2.2.5'. It was created on '9/3/22, 3:36 AM' and last updated on '9/3/22, 3:51 AM'. The 'Airflow webserver' is accessible at 'Airflow', and there are links for 'DAGs', 'Logs', and 'DAGs folder'. The 'Labels' column shows 'None'.

Name	Location	Composer version	Airflow version	Creation time	Update time	Airflow webserver	DAG list	Logs	DAGs folder	Labels
internshipproject	us-central1	1.19.8	2.2.5	9/3/22, 3:36 AM	9/3/22, 3:51 AM	Airflow	DAGs	Logs	DAGs	None

2 -Environment Created

3 – Bucket Storage: Dags

The screenshot shows the Google Cloud Storage console interface for the bucket 'us-central1-internshipproj-ea315e18-bucket'. The top navigation bar includes 'Google Cloud', 'My First Project', and a search bar. The main header shows 'Cloud Storage' and 'Bucket details' with links to 'REFRESH', 'HELP ASSISTANT', and 'LEARN'. The bucket details section shows 'us-central1-internshipproj-ea315e18-bucket' with the following configuration:

Location	Storage class	Public access	Protection
us-central1 (Iowa)	Standard	Subject to object ACLs	None

Below the configuration, there are tabs for 'OBJECTS', 'CONFIGURATION', 'PERMISSIONS', 'PROTECTION', and 'LIFECYCLE'. The 'OBJECTS' tab is selected, showing a list of objects in the bucket. The objects are:

Name	Size	Type	Created	Storage class	Last modified	Public access	Version history
RecipeWarehouse.py	10 KB	text/x-python-script	Sep 3, 202...	Standard	Sep 3, 202...	Not public	—
airflow_monitoring.py	729 B	text/x-python	Sep 3, 202...	Standard	Sep 3, 202...	Not public	—
sql/	—	Folder	—	—	—	—	—

4 – Dag Running: Tree Created
